REVISED GUIDELINES ON SOCIAL CONTENT (as of Mar 14, 2017)

The task of learner-centered education is to help Filipino school children develop their full human potential. Their total development can contribute to the growth of the Filipino nation and build appropriate structures and institutions for the attainment of a just and humane society.

This requires the teaching-learning process to be appropriately contextualized in relation to the Filipino learner's social realities, experiences, and traits while cognizant of the perspectives, values, rights, and sensibilities that are being instilled and promoted.

Learning resources, in support of the teaching-learning process, should thus be guided by the abovementioned considerations. The Department of Education (DepEd) ensures that the text and non-text materials used in the teaching-learning process appropriately integrate social content and the government's educational thrust.

Social Content

Social content refers to themes or topics for which the DepEd prescribes certain guidelines when these themes or topics are included or referred to in lessons in the learning resources. Among the themes or topics are those on the Filipino Learner, The Filipino Nation and Philippine Society, Citizenship and Social Responsibility, Individuals and Social Identities, Social Institutions, Gender, Media, Technology, and Communication, Health and Safety, and Environment.

Learning resources that follow these guidelines avoid stereotypes and help develop in learners such desirable values as nationalism, justice, moral uprightness, inclusivity, understanding, and compassion among others. Through the concrete expression of such values, the DepEd's core values are realized.

The following guidelines on social content are recommended for integration in learning resources:
